

INSPIRATIONS GARAGE DOORS

A stunning range of stylish finger safe aluminium frame garage doors with a wide selection of composite inserts for you to match with your home.

Stylish, safe and durable.

Steel-Line's innovative Inspirations range of garage doors offers over a hundred different garage doors for you to choose from. You simply look at the façade of your home and decide what style would best suit – choose your frame colour and then match it with the insert which fits in best with the look you want.

The finished garage door will look architectally inspired and if you feel creative for a small premium Steel-Line can powder coat your frame any colour and glaze in customised inserts.

Not only will you get a stunning looking garage door but you will also get one with improved safety with our finger safe extrusion. At Steel-Line we think not only about giving your home a stunning look but also about protecting you and your family.

Finger safe design

Steel-Line's Inspirations aluminium sectional garage doors feature a curved finger proof joint for added safety. This unique design not only safeguards your family against serious injury, it also seals out elements that can penetrate conventional aluminium garage doors. For added safety you can also install a photo eye beam as an optional extra.

Note:

- The colours shown are a guide only. The limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples, as the Inspirations finish variations in the colour will be evident. Additionally, Steel-Line reserves the right to vary or delete colours without notice.
- This door may not be suitable for cyclonic areas. Please check with your local council for your home's specific wind load requirements.
